

## Inviting IT Professionals to Drive e-Governance

National Institute for Smart Government (NISG), a Company partnering with e-Governance initiatives envisaged under the National e-Governance Plan (NeGP), invites applications from professionals from both private and public sector with proven experience of handling large IT/e-Governance projects.

NeGP is an ambitious initiative of the Government of India with a vision to provide public services to the common man in his locality at affordable costs. Selected candidates will be placed in the State e-Governance Mission Teams (SeMTs) in 35 States/Union Territories to support them in the implementation of the National e-Governance Plan.

Consultants are required for the following positions (Job Codes are mentioned against each position). Compensation will be competitive.

### SeMT Positions (across various States / UT Capitals)

Experience	Position	Experience	Position	Experience	Position
